**Programs that
POWER
the Community**

MISSION - Our Goal is...

To prepare, inspire and support leadership for the improved future of our community!

Leadership Osceola County is an unsurpassed leadership development program that began in 1989, in conjunction with the Kissimmee-Osceola County Chamber of Commerce. Each year approximately 30 people who represent the diversity of the Osceola County community are inducted into the program.

Over the course of the program, participants are introduced to our community through real life experiences. The class learns about the strengths and challenges of the community in which they live and work.

The Leadership Osceola program kicks off in mid-February with a two-day team building retreat. The Friday and Saturday experience is designed to remove the class participants from the stress of everyday life and allow them to look at community

challenges with new eyes. The retreat also serves to bring leadership participants together as a group to encourage active participation and, during a ropes course, camaraderie during the rest of the program. A SIMSOC activity provides the opportunity to explore interpersonal relationships.

The remainder of the Leadership Osceola County program proceeds on a bi-weekly basis. These Wednesday meetings lead the participants through a series of invigorating and insightful daylong experiences that cover a multitude of community oriented subjects including social services, criminal justice, education, emergency services, government, environment, economic development, community planning/vision and arts & culture.

The program culminates in mid-June with an enjoyable graduation ceremony hosted by Walt Disney World. For more information, call or email Donna Sines at 407-933-0870 x-223 or dsines@communityvision.org

Yes! I want to nominate myself or someone I know for Leadership Osceola County.
